

NAVPRAYAS
(A GROUP OF INNOVATIVE THOUGHTS)

NavRachna

-Create with what you have

INTRODUCTION

NAVPRAYAS is a voluntary organization established in the year 2000 with the motive of the upliftment of the native society in the educational, social and moral aspects.

This year Navprayas presents “**NavRachna**” *-Create with what you have* (A Model Making Competition) where people create some mini projects based on their creative and innovative skills. The motive behind this event is to enhance creativity and innovative skills in our society.

The participating teams have to make models with the materials available in their home (some of them have been mentioned below). So, what is a model? Model is a 3D presentation for something that you want to propose or something which you want to make in real life. It should be smaller and less complex than real-life projects.

For example, if we want to make a car-model, then we just have to show its structure rather than showing the whole concept. We have to depict everything but it doesn't mean that we have to make the real things.

ELIGIBILITY

- Group members must be from the same family/home..
- Participants can be of any age or class.

REGISTRATION FEE

- Free of Cost
- Registration link: <http://url.navprayas.in/navrachna-2021>
